What makes Linetec the finisher of choice for so many manufacturers and specifiers?

From what they tell us, it's the reliability and quality that comes from working with an industry leader. As the nation's largest independent architectural finisher, Linetec offers liquid Kynar® and Hylar® PVDF coatings, powdercoat, and anodize finishes as well as a variety of other value-added services.

PAINTING

Linetec enjoys partnerships with PPG, Valspar, and Akzo Nobel, the leading manufacturers of high-performance architectural Kynar® and Hylar® PVDF coatings. With over 30,000 unique colors in our palette and the ability to match almost any color in-house, you can be assured that Linetec will provide the perfect color for your project.

UNLIMITED COLORS

Linetec's in-house computerized blending offers you an unlimited choice of colors in Kynar® and Hylar® PVDF coatings and baked enamel paints. We provide 48-hour custom color matching service and reliable lead times on custom color orders. Color consistency is exceptional from batch to batch and project to project.

QUALITY

Through the use of our 5-stage chrome pretreatment system and our highly automated paint line, Linetec is able to produce top quality finishes with consistent results. With this technology and our Quality Assurance team inspecting every job for color, mil thickness, appearance and multiple other performance specifications, you can be assured of the best possible finish.

	70% Kynar 500® PVDF	50% Kynar® PVDF	Baked Enamel
	70% Hylar 5000® PVDF	50% Hylar® PVDF	

CARE & CLEANING

The Kynar® and Hylar® PVDF based products that meet AAMA 2604 and AAMA 2605 specifications are warranted to retain their color and gloss level for many years. To assure they retain their original beauty, these highly durable finishes should be cleaned occasionally. When selecting a cleaning solution use mild soap solutions; avoid using strong acid or alkali cleaners as they may damage the finish. For additional information regarding care and cleaning contact your Linetec representative or visit www.linetec.com.

With Linetec there is almost no limit to the paint colors available. We have the capabilities to in-house blend 70% Kynar 500® and Hylar 5000®, 50% Kynar® and Hylar®, and Baked Enamel paints. To view more paint selections: Valspar's, PPG's, and Akzo Nobel's paint cards are available via our website at www.linetec.com. Metal color chip samples can be ordered directly from our website.

* Standard Colors are two coat in-house blendable paints. Normal lead-times apply. Please indicate desired paint system when ordering (70%, 50%, or Baked Enamel).

** Premiere Colors require additional processing, lead-times, and cost. Please indicate desired paint system when ordering (70%, 50%, or Baked Enamel).
